No.	TOOL NUMBER	DESCRIPTION	
①	07GAG-PF50100	Clutch Disc Alignment Tool	
②	07924-PD20003	Ring Gear Holder	

A technical drawing of a clutch disc alignment tool. It consists of a long, thin cylindrical shaft with a larger, flat circular disc in the middle. The shaft has a threaded section near the disc and a smooth section at the end.

①

A technical drawing of a ring gear holder. It is a mechanical device with a C-shaped frame. A bolt is used to clamp the frame around a ring gear. The frame has a vertical support on one side and a horizontal base on the other.
